### **REASONS FOR ALLOWANCE**

1. Claims 1-50 are allowed.
2. The following is an examiner's statement of reasons for allowance: Chen et al. (7,027, 982) shows that it is well known to have audio encoder which regulate quality and bitrate. In regard to claims 1, 16, and 17, the prior art of record does not show or suggest encoding a sequence of media data using a trellis to produce an output bitstream of the media data at constant or relatively constant bitrate, wherein the encoding includes pruning the trellis according to a cost function that considers quality according to noise to excitation ratio.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
